2024 HARVARD LEGAL TECHNOLOGY SYMPOSIUM MISSION STATEMENT

Organized By

HARVARD JOURNAL OF
LAW & TECHNOLOGY

Join a vibrant, interdisciplinary, international legal and tech community for the 2024 annual Harvard Legal Tech Symposium! Attendees, panelists and sponsors of the Harvard Legal Technology Symposium recognize the swift evolution of our world, with technology emerging as a pivotal force in reshaping the landscape of law and its study.

Don't miss out on this opportunity to be part of this dynamic symposium where disciplinary boundaries are transcended, offering a unique opportunity to engage, learn, and shape the discourse on the evolving intersection of law and technological innovation.

Our conversations will revolve around three pivotal themes:

Regulatory Environment – Delve into the intricate interplay between law, policy, and the newest capabilities of AI.

Legal Education – Explore how academia can effectively respond and adapt to the escalating significance of technology

Legal Ecosystem – Examine the transformative impact of technology on the career trajectories of practicing attorneys, in-house counsels, legal operations and strategy professionals, and legal tech vendors. Gain insights into how technology is reshaping the very fabric of the legal ecosystem.
